The seamship has brought Europe, Asia, and Africa, into our neighborhoud; and will greatly multiply our connections, as Merchants, Travellers, and Politicians, withall parts of the world; to that mach more than ever it now becomes exercive intelligent American to be informed, of the confliction and change of fureign countries. And this not only becomes of their nearer, connection with ourselves, but because the indions seem to be hastening, through a rapid process of change, to some near saste of things, which the interly political prophet cannot compute or forcese.

Indeed, I know of few persons who have used it, comparatively, but commend it in the strongestiers 3. A case of Alakon, the street I ear rate, to which I was called a menth tage, evinced the superiority of the Balsom. This disease hated six weeks, and the dyspica and suffering were dreading! I gave him one bottle of the Balsom, and four ources of syrup squills, directing him to take tea-spoonfiel doses of best Bordeaux olive oil, when the difficulty of breathing was greatest. Next day I breed his demondent will, and made him take its bottles of Witter's Balsom of Witte Cherry home, with him as a pretent, he having alleged that he had used to next, expensive medicine to no profit. WEDNESDAY MORNING, JULY 81, 1850 MR. G. VINDERHOFF'S SHARSPEREAL READINGS .-- The audience which assembled on Monday evening to listen to this gentleman was one of which any man, what eyer his subject or his powers, might well be proud to call together; it comprised nearly all which Nowport could bring to-gether of beauty, intelligence, fashion and wealth. It was a great compliment to Mr. Vandenhoff; and one which his reading of Shylock, Portin, Falstuff, Wolsey justified and repaid. Allis equeeption of Shylock is philesophical and bowarful; he does not make the Jawa incre impersonation of malico ; but he invested him with a certain dignity; as the servocate of his persecuted race, and brought out strongly the intollec-tival force and strong logical acuteness of Skyleck, by which he towers, above the Dake and the Court. The accelerated apeech (Portia's) on Mercy produced a great effect and was loudly applauded .-The change to Paletall was a great trancition, and proved the variety of the artist's powers; he gave the scene at the "Bose's Floud," in which Pulstaff recites his wondrous deeds at Gadshill, and the prodictes of valor he there performed, with his after apology for his " cowardice upon instinct," on being detected and exposed in his monstrous ties, with a humor that conveled the suffrage with laughter .-But the greatest effort and the most perfect performance was the 'Wolrey; the attention of the audience was riveted on the reader, and the elence was so intense that you might have heard a pin drop. The large audience departed amply gratified, and an extnest desire was expressed that Mr Yandenhoff would, before his departure, gire it joedling of some entire play, as Hamlet or Machath. We have he will do so, as we have every reason to believe that skin Hall would be crowded to its utmost espacity. Mr. Vandenhoff won hosts of new admirers by his excellent Readings, Monday evening.

Thomas Darcey McGee delivered a lectore at the Town Hall, Monday evening, on " The Mission of the Irish race in Europe and America." It was a glorious production, teeming with the noblest thoughts, and expressed in elequant lan-

WF The Annual Commencement of the Georgetown College took place on Tuesday last. The large hall in which the exerctses were held was crowded with a brilliant assemblage of ladics and gentlemen .-The exercises were highly interspersed with delightful music by the Marine Band,

What did the silly fathers of the Town intend to do with the dollar which they tried to get out of Vandenhoff for the privilege of Roading Shakspeare in New port! It was a very small operation, bu they could not humbing Vandenhoff, for he has seen too much of the world to be alarmed by scarcerows.

Ан Ессептии Ото Васивгой. -- Wi find in the New Orleans Pieryone of the 10th jour, a letter dated Woodbridge, N. J. July 1th, in which we find the following singular account of an eccentric old bach : solo

An old backelor has lately died in this place, leaving a furture of \$80,000. From what I learn of him he must have been one of the most recentric and curious chaps that over lived. His clothes upon being taken off were separately folded in papers and were never allowed the sight of a brush, a silk handkerchief answering every purpose. Should be be in the road and spy a wagon in the distance, he would run for his life, for fear that a speek of dust should chance to fly upon him. The village belies have enjoyed many a laugh at him when returning from church, to see him take to his bools and run at the sight of a carringe or a cloud of dust, and sithough he would take no notice of them at the time, yet they were not forgotten: He always endravered to keep an clear of the ladies as possible and particularly the widows, whom he looked upon as something very dreadful, and was hever to be caught walking in the foad with one if he knew it. With all these oddities in was miscriy to a cent, and would often he seen at the store exchanging a quarter of a dullar for 25 pennics, thereby saving a copper on every 25. These he would not take either without examining rusty or something also. Many of the articies he bought was by the penny's worth, and hence his great use for that particular coin. When he came to the last peany of his bundle it was wropped in two pieces of paper and laid away. Thus lived this curious old man, and when he approached death's door he was as odd as ever. He could not bear the idea of any one seeing him, or ontering his room, for fear that they would soil his clothes, step on his shoes, or do sumo other damage, and in this state he died, "unwept, unpitied, and uncared for," although worth a fortune of \$80,000.

SINGULAR COINCIDENCE.-Some years ago we noticed a paragraph pointing out the singular fact that a majority of our Prosidents had left the Chair of State during their 66th year. On reference to authentic documents we find this true, and now we may add Goneral Taylor to the list. The elected Presidents, and their ages on rotiring, were as follows :- Wash ington retired in his 68th year ; John Adame, in his 66th ; Jefferson, in his 66th ; Monroe, in his 68th ; J. Q. Adame, (one term) in his 62d; Jackson, in his 70th Van Buren, in his 59th ; Harrison, in his 58th . Polk, in his 54th, and Taylor in his 66th year. Had the second Adams been elected for a second torm, he also would

ter entailing Drayton Park, and other large estates in Straffurdshire and Warwickshire, it proceeds to recite sums to the amount of nearly a quarter of a million; previously advanced to, or sottled upon his several children, (not including £9,000 per annum settled on his oldest son,) and then bequeaths about £600,000 more, making the portions of his fire younger sons £106, 000 each, and those of his daughters £53,-000 each. He leaves to a chapel erected hy him, at Fazeley, in Straffordehire, 1,-000 lbs., (afterwards revoked because he. had endowed it with lands,) and 6,000 lbs to a school established by him in the said villago; to the Infirmary and Lunatic Asylum in Manchester, and the Lying-in-Hospital in Salverd, one hundred pounds each. The will is dated July 27, 1820. By a codicil of February 11, 1825, the portions of his younger sons are increased to 135,000 lbs; and of the residue, which is said to have exceeded half a million, four ninths were bequeathed to the late barenet, and the one ninth to each of his five younger sons. The personal property was sworn at what is technically called "upper value," which means that it exceeded 900,000 lbs., and was the first instance of the scale of duties exceeding to such a sum.

64-A Chinaman, in San Francisco, keepor of a restaurent, left open a cespool on his premises, into which one of the cititons chanced to fall, and the result was an action for damages. To the note addressed by the sufferer's lawyer to John Chinaman, the following reply (in good Chinese) was returned without dolay :- " by the laws of the Celestial Empire, which have been in force from the time of Confucius to the roign of the present illustrious Taukwang, it is provided that when a man trespasses upon another's grounds, and there by falloth into a sink, he shall get nothing but dirty clother, unless he happeneth to be an auteide barbarian, in which case he shall also get laughed at. As-Sing believes these laws still in force in all parts of the world, and also in California. But if Mr. E. thinks otherwise, he can trot that officer along with the writ." The proceedings were dropped.

DEMAND FOR DAWYERS,-A correspondent of the Missouri Republican, writing from Fort Latame says: "If you could manage to seed as a few of your briefless lawyers, a good Judge, and constable or two, I think they would do well in this part of the country."

Their power over the above diseases is not excelled—it equalled—by any other preparation in the United States, as the curve intest, in many cases after skilful physicians land failed.

"The Tenth Legion," published at Woodstock Va., January 10, 1850, said--"A GREAT MEDICINE."

Va., Laurany 10, 1850, said.—

"A GREAT MEDICINE."

"We have uniformly refrained from recommending to the public any of the various Patent Medicines of the day, unless thoroughly convinced of their value. Among those we consider worthy of instite is the German Bitters, invented by Dr. Rechaud, and prepared by Dr. Jackson, in Phila delphia. One instance is particular, in which the apperior witness of this medicine has been tested, has fallen under our observation. During the last summer, a son of Mr. Abraham Crabill, of this county, was very seriously afflected with Liver Complaint, and after trying in value various remedics, he purchased a bottle of the Bittera, and offer using it, was so much reflected of this distressing usidady, that he procured auather bottle, and is resistored entirely to health."

Thum "The Weldon Herald," published at
Weldon, N. C., January 25, 1850, which said—

"It is very seldom that we make any allusion
to Patent Medicines, either approving or otherwise. Unfortunately for the country, and for honest and conscientious inventors and vendens of
those medicines, the hand is becoming florded with
quack preparations, that are made alone for profit
and are fit not even for the degs. In this state of
things it is hard to tell which are, and which are

medicine the first time the purchaser, he is very
apt to condense the whole of them and lay no
raore, and inventors must only blame those of their
resumber, (who ignorately combine plain incidence
together for the purpose of making money.) for
the ill success which attends the efforts of the deserving."

"We believe Dr. C. M. Jackson's ' Hoofland's

me in success when autems the more of the deserving."

"We believe Dr. C. M. Jackson's 'Hoofland's German Bitters,' to be a most excellent medicine, and one that should be highly popular in these days of Temperance—for they are altogether Vegetable in their composition, without one drop of Abouts-it Spirits in them. This medicine is innocent, the strengthening in its affects, and righty deserting of an unbounded popularity, which, when it becomes known, it will, no doubt, fully edge,' Judge M. M. Noch said, in his "Yeckly Messenger," Judge M. M. Noch said, in his "Yeckly Messenger," Junowy 6, 1850.

"Dr. Hoofland's German Bitters,—Here is a preparation which the leading presect in the Union appear to be manimous in recommending, and the teason is obvious. It is made after a preteriptice fermished by one of the coost exbinated physicians of modern times—the late Dr. Christopher Willielm Houfland, profeser to the University of Jenn, private physician to the king of Prissia, and one of the greatest medicine of altich he was the investor undendorser may be confidently relied on. He specially recommended it in Liver Complaint, Dyspepsin, Debitity, Vertigo, Acidity of the Stomach, Constipation, and all complaints arising from a disordered condition of the atocach, the liver and the intestines. Nine Philadelphia papera sepress their conviction of its excellence, and anyward of the editors speak of its effects from this observation, but lines the intention of our readless to the present pre-prietor's (Dr. C. The editor says of JRR HOOPLAND'S GERMAN BUTTERS:

"It is seldom that we reconcreat what are termed Patent Medicines to the confidence and pateronage of our readers; and, therefore, when we recommend Dr. Hoodland's German Bitters, we wish it to be distinctly inderation if the search of speaking of the most muss of the day, that are mixed about for a brief period and then fougetten after it has done its guilty rare of michiels, but of a medicine long catabilized, waitersally prired, and which has met the bearty approach on of the faculty itself."

Evidence upon evidence has been received (like the foregoing) from all sections of the Union, the last three years, and the strongest retinuous in its favor, is, that three is more of it und in the practice of the regular Physicians of Phibaldphia, than all other mostrous combined, a fact that can easily be established, and fully praving that a scientific preparation will meet with their resist approval when presented even in this form.

That this modicine will care Liver Complaint and Dayspeptia, no can doubt after using it as directed.
